ANNUAL  
SCHOLARSHIP  
REPORT

2022-2023 HLSMF Foundation Scholarship Memo  
Submitted respectfully by: Hannelore Snyder Brown, Chair

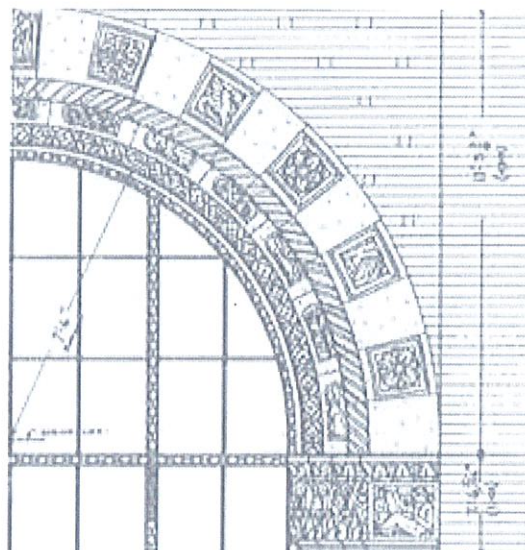

### 2022-2023 Scholarship Report

1. Winfield High School graduates who have indicated they plan to return to Winfield and/or are current residents of Winfield will be given precedence over WHS students, while recognizing they are doing well, who do not plan to return to Winfield or Kansas. Scholarships are awarded in a tiered fashion for Freshmen and Sophomores. However, once a student is a Junior and above, there are minimum award amounts which will vary from year to year dependent upon budgetary constraints. Additional weight is given to those who not only perform well academically but extramurally (working, volunteering, shadowing, extraordinary letters of recommendation etc).
2. The two plus years of distance/zoom education for students as well as the burnout felt by many in the healthcare fields is apparent. The number of scholarship applicants is stable, thankfully, but I plan to visit WHS a couple times this Fall to encourage retention amongst the Exploring Healthcare students. Moreover, our main Healthcare mover and shaker aka Rob Fields has retired (ok, semi-retired) and has handed his mantle over to Joe Woods. Joe plans to continue Rob's exemplary EH legacy. Anything we can do to assist in the transition will be gratefully and truly appreciated.
3. Along those lines, if you do come across a potential scholarship student, please do not hesitate to send me their information so that I may do a preliminary evaluation. As always, I appreciate your discretion and encourage your enthusiasm.
4. Follow up emails and phone calls have been made to students who received scholarships last year but did not submit one this year. Retention is important.

**Rob Fields Discretionary Grant:** The \$2500 2021 Grant awarded to Rob Field's Exploring Health Careers class will be used primarily for new class textbooks. Joe Woods, who has stepped in as the new Exploring Health Careers Instructor, will be in touch should the grant not fund all of the textbooks. We will renew the grant as needed when funds are near 0 and will earmark \$2500 accordingly.

\*\* to refresh everyone's memory... last year we awarded Rob Fields, Exploring Health Careers and CNA/HHA/CMA instructor extraordinaire a \$2500 grant from which he may use to cover expense related to the CNA/HHA/CMA curriculum. While Rob does receive funds for his class, he has repeatedly and often covered expenses above and beyond the funds he has been given for students and supplies. Rob would of course be required to submit receipts of his expenses and said grant will be renewed when funds are depleted, provided we have the funds to renew said grant. Rob has been instrumental in the overwhelming success of the Exploring Health Careers and CNA/CMA/HHA program. We will provide the same grant to Joe Woods
